Subject: [redacted] Proposal [redacted] Revision dated
8 April 1963

STAT

STAT

Dear John:

Enclosed is our revised proposal for a Stereo Chip Comparator
[redacted] utilizing [redacted] Digitizer for accuracy
of linear measurement.

This proposal is based on a firm fixed price contract with a
delivery of six (6) months from authorization, F.O.B. destination. Progress
payments are requested in accordance with existing regulations. All rates
and burdens are identical to those used for other government projects and
are approved by the Army Audit Agency.

It is highly desirable to receive government furnished equipment
120-160 days after authorization for integration into the system.

Any resultant contract will exclude government claim to patent
rights and data as outlined in our proposal.

Please be assured we will alter our proposal to meet any changes
in your requirement.

Very truly yours,
